## ABOUT US

Malmet (Australia) Pty Ltd is a privately owned and operated Australian family business belonging to the Celi Group of Companies

Malmet Specialises in Hospital and Aged Care Equipment for CSSD, Recovery, Obstetrics, Theatre and Ward Utility Rooms making them a leading manufacturer of Infection Control Solutions

Malmet has been manufacturing hospital and aged care equipment since 1969, and supplies hospitals and nursing homes throughout Australia and the International market through a comprehensive network of distributors and agents.

All Malmet products are manufactured at the Malmet Leeton, NSW site which is ISO 13485:2016 and ISO 9001:2015 Certified.

## MALMET BEDPAN/URINAL BOTTLE WASHER DISINFECTOR

Malmet ES-D Series Bedpan/Urinal Bottle Washer Disinfector range is the most efficient and effective method of washing and disinfecting bedpans and urinal bottles. Independently micro-tested, Malmet ES-D Series are proven to inactivate organisms (bacteria and viruses) generally found in bedpans and urinal bottles.

The detergent wash ensures that faeces, etc are properly removed before the final steam disinfection, ensuring efficacy to the highest relevant Australian and ISO standards. Also designed with the environment in mind, the ES-D Series has one of the lowest energy usage rates in the industry.

- Low water and power consumption
- Large capacity: 1 bedpan and 2 urinal bottles per cycle
- Standard universal rack will also accept bariatric slipper pan
- Detergent cycle
- Infection Control: Microbiologically tested by an independent NATA certified laboratory
- Hands-free operation to minimise infection control risk
- Simple controls, easy to operate
- Steam disinfection with inbuilt boiler – no external hot water supply required
- Disinfection to higher A<sub>0</sub>600 level as recommended by AS 5369 / ISO15883
- No venting required
- Available in 240V 10A and 240V 20A
- Compliant to relevant electrical safety and Watermark standards
- ARTG Certification 232012 to industry highest Class IIb level
- Malmet Door Obstruction Feature - This is factory set to 12Nm ±10%; causing the door to re-open when an obstruction is detected. This is designed to protect the integrity of the machine and the articles within.

## BEDPAN/URINAL BOTTLE AND UTENSIL/BOWL WASHER DISINFECTOR

The WDS Series combines the performance, capability and proven reliability of Malmets ES-D Series Bedpan/Urinal Bottle Washer Disinfector and WDT Series Utensil/Bowl Washer Disinfector. This offers great space and cost savings for your facility. Being locally made, the availability of spare parts and servicing is a simple and quick process. Malmets WDS has been micro-biologically tested to verify that the machine effectively inactivates organisms (bacteria and viruses) as required under the relevant Australian and ISO standards.

- Only combination washer disinfector designed and manufactured in Australia
- Large capacity: 2 bedpans and 4 urinal bottles, or up to 4 bowls, or up to 6 kidney dishes (with optional rack), various utensils etc
- Infection control: Microbiologically tested by an independent NATA certified laboratory
- Hands-free operation to minimise infection control risk
- Sensors to minimise risk of incorrect program being selected
- Simple operation: 3 programs, with clear graphics (bedpans/urinal bottles, urinal bottles only, or utensils/bowls)
- All programs fully disinfect
- Detergent wash cycle
- Steam disinfection with inbuilt boiler
- Disinfection to higher A<sub>0</sub>600 level, as recommended by AS 5369 /ISO15883
- No venting required
- Available in 415V 20A or 240V 20A
- Compliant to relevant electrical safety and Watermark standards
- ARTG Certification 232450 to industry highest Class IIb level
- The door obstruction feature is factory set; causing the door to re-open when an obstruction is detected. This is designed to protect the integrity of the unit and the articles within.

## MALMET DETERGENT

CONTAINS: POTASSIUM HYDROXIDE <10%

Malmet Machine Detergent Concentrate is a highly active, concentrated detergent formulated for use in machine washing systems for medical items and instruments. Malmet detergent is compatible with glass, plastics, stainless steel and other materials which would normally be subjected to machine washing. Automatic dispensing will give the appropriate dilution in most instances.

Malmet products have been laboratory tested by external organisations with Malmet detergent to ensure that the articles are cleaned to meet and/or exceed efficacy tests outlined in AS 5369 ISO15883

ARTG Certification 190013

Detergent dispensed per application:

- ES-D Series Washer Disinfectors 30ml
- WDS Series Washer Disinfectors 30ml
- WDT Series Washer Disinfectors 65ml per cycle

Detergent Specifications / Grade:

- Poisons Schedule: 6
- Dangerous Goods Class: 8
- Hazchem Code: 2R

## 105 LITRE BLANKET WARMING CABINETS

The Malmel 105 litre Blanket Warming cabinets are designed to be placed on any bench top.

Reduce the risk of hypothermic reaction, post-operative discomfort and stress in patients. Blankets are gently heated to restore body temperature post surgery, and assist thermo-regulation. Blanket warming cabinets are recommended for Recovery, Maternity, General Ward, Specialist and Intensive Care Units.

- Stainless Steel Construction with insulation cavity, therefore the exterior is cool to touch
- Double glazed doors for inventory monitoring
- Magnetic door closure
- Over temperature protection (5°C above setting) and temperature lockout
- Fan-assisted convection heating
- Adjustable shelving (2 x wire shelves)
- ARTG Certification 289497 Class I

<b>UNIT DIMENSIONS:</b>	500mm (W) x 595mm (D) x 735mm (H)
<b>VOLTAGE:</b>	240V
<b>CURRENT:</b>	2.8 Amps
<b>PHASE:</b>	Single
<b>HERTZ:</b>	50
<b>SHIPPING WEIGHT:</b>	57 kg
<b>CAPACITY:</b>	Up to 6 blankets
<b>VOLUME:</b>	105 litres
<b>SET TEMPERATURE:</b>	60°C
<b>MAX TEMPERATURE SETTING:</b>	60°C
<b>POWER CONSUMPTION:</b>	Less than 7.8kW/24hrs

## 105 LITRE FLUID WARMING CABINETS

The only safe and accurate method of determining and maintaining saline, irrigation, glycine, parenteral and IPD fluid temperature to the manufacturer's recommendations. Fluid warming cabinets are essential in Maternity, Recovery, Theatre, Specialist and Intensive Care units.

- Stainless Steel Construction with insulation cavity, therefore the exterior is cool to touch
- Double glazed doors for inventory monitoring
- Magnetic door closure
- Special sensor plate for actual fluid temperature monitoring
- Over temperature protection (5°C above setting) and temperature lockout
- Fan-assisted convection heating
- Adjustable shelving; 1 litre and 2 litre bottles and bags can be stored (3 x wire shelves; bottom fixed)
- ARTG Certification 188762 Class I

<b>UNIT DIMENSIONS:</b>	500mm (W) x 595mm (D) x 735mm (H)
<b>VOLTAGE:</b>	240V

## 260 LITRE BLANKET WARMING CABINETS

Malmet Blanket Warming cabinets are designed to reduce the risk of hypothermic reaction, post-operative discomfort and stress in patients. Blankets are gently heated to restore body temperature post surgery, and assist thermo-regulation. Blanket warming cabinets are recommended for Recovery, Maternity, General Ward, Specialist and Intensive Care Units.

- Stainless Steel Construction with insulation cavity, therefore the exterior is cool to touch
- Double glazed doors for inventory monitoring
- Magnetic door closure
- Over temperature protection (5°C above setting) and temperature lockout
- Fan-assisted convection heating
- Individual cabinets can be converted to any combination to suit your requirements
- Multi-purpose installation  
Options: Wall/Bench Mounted; Freestanding with Floor Skirt; Freestanding on Stand; Freestanding on Castors
- Optional castors (2 fixed, 2 swivel and lockable)
- Adjustable shelving (3 x wire shelves)
- ARTG Certification 289497 Class I

# SERVICE DIVISION

## Robust technology, easy to service, local spare parts

One of the cornerstones underpinning Malmet is our commitment to excellence in customer service. At all levels of our company - from the production floor to our sales and management staff - integrity and professionalism mark the way we do business.

Malmet Service manage the service for the Malmet brand of hospital equipment. All Malmet Service Technicians are comprehensively factory trained offering a professional and competitive service.

Urgent service/breakdown requests are attended to within a 24 hour period.

Malmet prides itself on achieving outstanding customer service satisfaction, obtaining 9/10 and higher on all Customer Service Quality Audits.

Malmet have their own service technicians to cover most of NSW/ACT, with authorised service agents for other areas. Interstate, Malmet have fully trained authorised service agents to cover most of Australia.

## Preventative Maintenance Agreements and Validation Testing and Certification

With the changes to the Healthcare Industry accreditation process more facilities are required to show that all equipment is maintained according to the manufacturers recommendations. Malmet recognises this need and are pleased to offer Preventative Maintenance Agreements (PMA) for all Malmet products, and Validation Testing and Certification in accordance with AS 5369 and ISO15883 PMA's take into consideration the quality, age and usage of the products to give the most suitable scheduled competitive agreement tailored to the facilities requirements. Malmet or its authorised service agents can offer a competitive, professional PMA tailored to your organisation.
