

Alcamo – the feelgood bedside cabinet

The Alcamo unites the comfortable versatility of the Estrado with a design incorporating a homelike touch: Its table top and the **corner profiles are rounded** and so create a particularly homelike ambience. The voluminous cupboard, the storage compartment and the drawer of the 89 cm high bedside cabinet offer a **ample space** so that the important things of everyday use are always close at hand – **from both sides**. The table on the Alcamo can easily be infinitely adjusted with the aid of **power assistance** to the desired height.
