

Compleo – the homely bedside cabinet

The Compleo offers the same high level of comfort as the Lumano, but is distinguished by its different design. Its **rounded corner profiles** give it a particularly comfortable feel and are ideal for making residents feel at home. The large drawers in the lower cabinet in particular provide **ample storage space**. Since the two front double castors of the four in total are not steerable, the Compleo always has a **secure standing** and so serves the residents as a safe support.
