

Estrado – the versatile bedside cabinet

The Estrado is a sizeable and **comfortable bedside cabinet**, but comes with an additional **space-saving** design feature: In its folded away state, the table is fully incorporated in the body of the bedside cabinet. This increases the size of the Estrado bedside table as it extends across everything and offers a great deal of useful space. The drawer, storage compartment and cupboard can be used from both sides which makes this cabinet **highly flexible** in everyday use.
