## For wonderful moments at home

Sleep more peacefully than ever before – in a bed from the suite eMotion range. These beds offer you a completely new level of comfort, whatever activity you want to enjoy. Read a book in a more comfortable position, watch television in a relaxed manner or dream comfortably with your eyes open.

For wonderful moments at home, suite eMotion offers you the perfect lying and sitting positions. This is made possible by a unique concept: the individually adjustable mattress base 'floats' on a foundation that is height-adjustable. It is underpinned by almost invisible technology. Each position perfectly supports the contours of your body and can be easily adjusted using the MotionGuide® controls. The suite eMotion also spoils you with the comfort of your favourite armchair.

*Prestige* is one of three attractive design lines in the suite eMotion range. Sensuous materials and luxurious details make *Prestige* an exquisite item for your bedroom. You will love it.

›With my suite eMotion, I've created an oasis of relaxation. It's incredibly comfortable in any position – and also looks amazing.‹

- 1 Thanks to the flexible LED reading light, you can get light exactly where you need it.
- 2 A subtle night light can be activated whenever desired.

# Avantgarde

## Beds that offer new possibilities

*Avantgarde* is the name of the second design line in the suite eMotion range. With its clear lines, it brings modern elegance and a maximum of comfort and adjustability to the bedroom.

Work on your laptop or telephone in comfort – the individually selectable sitting position makes all this possible. The bed can also be easily controlled via a smartphone or tablet. In the double bed the mattress bases are separately adjustable so that one partner can already sleep undisturbed while the other is still surfing the internet using the chair position. And when your device's battery needs recharging, this can easily be done via the integrated USB connection.

Love breakfast in bed together? Then adjust the flat lying position with the MotionGuide® to your favourite position using the intuitive controls and enjoy a romantic moment together. The bed also offers a lot of space for a cozy start into the Sunday with the whole family. The suite eMotion will quickly become the centrepiece of every apartment.

- 1 The first-rate finish and various design details are wonderful highlights.
- 2 You can charge your smartphone or tablet via the integrated USB connection.
- 3 The MotionGuide® control unit can also be used as a mobile unit.
- 4 The mattress bases of the double bed are individually adjustable.

# Chalet

## Comfort of the highest order

Enjoy *Chalet*-style living – the third design line will seduce you with its charm and style.

As with every model in the suite eMotion range, *Chalet* also offers special comfort features. Simply let the mattress base 'float' in the air. It makes changing the bed sheets very easy. In addition, you can pack a suitcase much more comfortably at this height.

You can of course also adjust the bed to the ideal height for you to get in and out. For this, the MotionGuide® control is always there, wherever you need it.

- 1 Invisible technology lifts the mattress base to hip height.
- 2 The unique MotionGuide® is perfect for operating the keys, it provides support in the form of a stable handle and is a beautiful, integral part of the bed's design.
- 3 The harmoniously coordinated materials suit every living environment.

## Two mattress concepts, one result: dreamlike comfort for perfect relaxation

Both mattresses were designed exclusively for suite eMotion. They guarantee consistent and luxurious comfort when sitting or lying – no matter which position you set the bed to. The specially

tailored materials mean the mattress always adjusts smoothly to your body. You can tilt the mattress base to extreme angles without any problems. Only top-quality, perfectly coordinated materials are used.

The HR foam mattress allows you to sink in perfectly, moulds precisely to your body and provides highly effective support. The pocket-sprung mattress moves harmoniously in balance with your body.

### HR foam mattress

- total height 20 cm
- Core**
  - seven-zone basic core, density 50 (height 14 cm)

## Great selection, great effect: our high-quality upholstery fabrics and leather

Stieglmeyer commissioned a renowned manufacturer to create the beautiful materials for the suite eMotion range. The upholstery fabrics for the body and headrest have been developed by JAB ANSTOETZ, which also makes the duvet covers and pillows in a range of sensuous colours and patterns. You can freely select the fabric or leather for your suite eMotion bed, allowing you to design

your completely personal dream bed and integrate it perfectly into your home. You will be amazed by the top-quality fabrics and leathers, which are pleasant to touch, robust and durable. Your retailer has the entire collection of fabrics and leathers available and would be happy to advise you.

## 115 years of expertise in healthy sleeping

There are more than 115 years of expertise in healthy sleeping incorporated into each suite eMotion. Stiegemeyer, the family company from eastern Westphalia, has been in existence since 1900. From the very beginning, the company has been characterised by the family's wish to create functional and high-quality beds that offer people the highest level of comfort and quality of life.

Stiegemeyer is particularly proud of the development of the suite eMotion bed range. It combines innovativeness, uncompromising quality standards and trailblazing design. They are beds with unique comfort functions.

The suite eMotion shows exactly what drives Stiegemeyer: the joy of opening up a new dimension of relaxation and comfort to discerning people.

Look forward to your suite eMotion from Stiegemeyer.

---
