

Bedside Safety Crash BSBA 7272

Crash Mat beside Capri Low Low Bed

Can be placed on the floor next to the bed to assist in preventing injuries to patients rolling out of bed, especially where side rails cannot be used.

New reflective strip for easier low light visibility.

Three sections of safety foam covered by hinged nylon to enable folding for easy storage.

Dimensions (mm): 1730L x 620W x 16D
