Phone: 07 33558000 Fax: 07 33555043

Cloo is an adjustable toilet seat raiser which combines flexibility and simplicity. It has a discreet and soft design to blend in with your bathroom interior. To make your choice simple, Cloo is only available in two different models, with or without armrest. However both models can be adjusted to different heights and with an angled seat. Cloo is simply a modern, safe and hygienic toilet seat raiser.

## Stable and comfortable

The seat and armrests have a comfortable design. The armrests can also be fixed in the folded position, which provides increased stability.

### Easy to clean

Cloo has soft plain surfaces, which makes it easier to clean. The seat can easily be detached when cleaning.

### Easy to mount

Cloo consists of an attachment and a seat. The attachment is easy to mount on the porcelain using quick-release nuts. Then the seat simply clicks into the attachment. No tools are required.

### Adjusting the height

The height is adjusted by changing the height adjusters. It can be set to a height of 6, 10 or 14 cm.

### Stable armrests

The flip-up armrests are detachable and can also be fixed when extra stability is required. If there is a lack of space on one side of the toilet you may choose to use only one armrest.

### Stays in upright position

Cloo is the first adjustable toilet seat raiser which stays in the upright position.

### Forward angle

Cloo can be mounted with a slight forward angle, making it easier for the user to stand up.
