

Relieve – Ergonomic knives

Compared to ordinary kitchen knives, the Relieve kitchen knives allow cutting with a straight wrist to utilize the strength in the hand and arm. They also relieve the strain on the fingers, hands and wrists. They balance well in the hand and require minimal strength to keep the blade up.

These knives are available with two different blades, one smooth and one serrated.

Description	Length	Weight	Item no.
Relieve kitchen knife with serrated blade	23 cm	161 g 5.7 oz	8050 1001
Relieve kitchen knife with smooth blade	23 cm	166 g 5.9 oz	8050 1002

Relieve – Cheese slicer

This cheese slicer allows people with impaired strength in their hands to slice both cheese and certain vegetables (like cucumber) with ease.

Gives extra power and precision when slicing cheese

The handle has an oval shape and the top provides a comfortable support for the thumb. The slicing blade is fitted close to the handle so that less effort is required. The slicing blade is "wavy" so the cheese easily loosens from the blade.

The Relieve cheese slicer is particularly suitable for people suffering from rheumatism, as the handle permits a stable and an ergonomically correct grip.

Description	Weight	Care	Item no.
Relieve cheese slicer	69 g 2.4 oz	Dishwasher-safe	8050 2001
