

Fix and Cut – Food preparation

These kitchen products keep the provisions in place, making it possible to work with one hand only or with a double grip to do simple food preparation.

Fix simplifies household chores

Fix preparation board stands firmly on its four friction feet or the enclosed suction feet. The jaws hold a bowl, grater or piece of food in place with ease. There is also a detachable spiked plate for smaller pieces of food. This can be removed and placed with the spikes pointing downwards to obtain a flat surface.

Cut stands firmly and simplifies cutting

Cut is a functional cutting aid which simplifies kitchen work by standing firmly and holding in place whatever is to be cut. By turning the transverse lath, the thickness of the slices is easily changed. The knife fits in the guides, making it possible to cut safe and straight with impaired sight.
