

Contour – Pen

The Contour pen has been specially designed to enable handwriting with poor gripping ability. It lays comfortably in between the thumb and index finger.

Contour pen

The Contour is a lightweight pen, gently rounded with a narrow grip area, making it pleasant and comfortable to use.

The pen rests comfortably in the hollow of the thumb and index finger, preventing point pressure and strain on the fingers. The light fluid ink further reduces the required strength.

The Contour pen requires a minimum of strength and gripping ability

Uni – Universal turner

Uni universal turner opens and turns small handles which can be difficult to manoeuvre.

Uni universal turner

Uni universal turner makes small, day-to-day tasks easier, such as turning on taps, opening/locking doors or switching on the cooker, dishwasher or washing machine. Uni has a comfortable angled handle which allows the user to grip with both hands. The hexagonal pegs provide a good grip thanks to the large gripping area.
