

Etac Hi-Loo with fixed mounting

A stable, secure and discreet toilet seat raiser which is appreciated for its functionality.

Discreet design

Hi-Loo with fixed mounting is a discreet toilet seat raiser which fits the majority of toilets. The ergonomically designed seat has recesses at the back and front, providing convenient intimate hygiene. Hi-Loo with fixed mounting is available in two heights: 6 cm and 10 cm.

Stable mounting and easy cleaning

Hi-Loo remains securely in place. It has two large friction elements which give a firm contact with the toilet. If extra stability is required for sideways transfers the friction elements can be exchanged for brackets. The seat can both be folded up and removed which makes cleaning easy.

Snap lock

The snap lock makes it easy to detach the seat unit for cleaning.

Min. 355 mm

Hi-Loo fits most types of toilets. The distance from the attachment holes to the inner front edge must be minimum 355 mm.

Accessory

Hi-Loo brackets to stabilise and secure the Hi-Loo raiser
