## Beauty body care products

Beauty is our award-winning range of ergonomically designed body care products.

### Comb and Hairbrush

Beauty comb and hairbrush come in two lengths. The shorter version is recommended when the user can reach up to the ear. The longer version is suitable for users who can only reach to the shoulder. Both the comb and brush are curved to follow the shape of the head. This means that the handle can be held close to the body to provide high comfort and control when combing/brushing the hair

Polypropylene and polypropylene based TPE

### Multipurpose grip

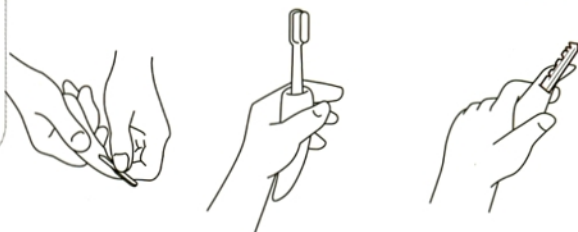

Beauty Multipurpose grip rests securely in the whole hand and offers a variety of use. With a poor hand function it can be very difficult to use a nail file. By inserting a nail file into the narrow end, a pedicure can be done with ease. The wider end of the grip may be used for a tooth brush or shaver.
