

Etac Swift shower stool/chair

Swift is a prize-winning series of shower stools/chairs designed with functionality and simplicity in mind. The basic shower stool can easily be transformed to a complete shower chair, depending on the user's needs.

Stable on any floor

Swift has a unique construction that adapts to uneven floors thanks to the flexible seat. The soft high quality ferrules adapt to the floor and ensures a good grip. All these features contribute to the users safety.

Changes with the circumstances

Swift is adaptable to different needs. It is possible to start using the shower stool, and add arm supports and back support as the users circumstances change. Swift is easy to adjust to the desired height with telescopic legs, no tools are needed. It can also be set one step lower at the front for a slightly forward tilted seat to aid standing up. Soft seats which are specially suited for showering are available should extra comfort be needed.

Easy to handle

Swift is easy to handle thanks to its light weight. Swift comes flatpacked and is easy to assemble without the need for any tools. It is also corrosion free.

clean

Practical soap dish

With the soap dish your shampoo and soap is easy to reach. It also holds most shower nozzles.

Safe surface

The structure of the surface ensures that Swift doesn't become slippery when wet.

Swift is also available in a low version
