# Exercise Bands & Tubing Accessories

**Call or email for more information**See more on our website: <http://www.evocare.com.au/exercise-bands.php>**Progressive  
Resistance**

**Evocare Exercise Bands** are used in the rehabilitation and strengthening of joints in the musculature system. **Evocare Exercise Bands** can be used with ROM exercises to provide resistance and a resultant increase in strength. Use of **Evocare Exercise Bands** can be throughout the rehabilitation process as it comes in varying grades of resistance, ranging from easy to super heavy.

## Adjustable Exercise Band / Tubing Handles (Code – LMBANDHANDLES, pair)

Handles for use with band and tube exercise bands. Simply feed the band or tube through the locating hole and the handle automatically locks around the exercise band or tube.

## Thera-Band® Assist (Code – LMBANDTHERAASSIST, each)

Increases the versatility of your Thera-Band exercise bands & tubing. Use it to attach band or tubing to a secure, immovable object (door, post, sofa leg, etc.). Simply loop the band or tubing through the assist device, attach the device to the desired object & use. Convenient & inexpensive.

## Thera-Band® Handles (Code – LMBANDTHERAHANDLES, pair)

Thera-Band Handles have a soft, comfortable grip and can be used with both the exercise band and tubing.
