Exercise Bands

Call or email for more informationSee more on our website: <http://www.evocare.com.au/exercise-bands.php>**Progressive
Resistance**

Evocare Exercise Bands are used in the rehabilitation and strengthening of joints in the musculature system. **Evocare Exercise Bands** can be used with ROM exercises to provide resistance and a resultant increase in strength. Use of **Evocare Exercise Bands** can be throughout the rehabilitation process as it comes in varying grades of resistance, ranging from easy to super heavy. The resistance is marked by colour of the band, light colours = light resistance, and dark colours = heavy resistance.

Features:

- Steady 30% increase from colour to colour.
- To use, simply cut a length from the roll and tie a knot to form a loop. The knot can be undone easily to change the length or size of the loop. **Evocare Exercise Bands** may also be used as a single length.
- Available in 6 colour coded resistances, providing a wide range of treatments.
- Made under the international quality standard ISO 9002.
- Available in 5.5m, and 25m rolls.
- Supplied in colour coded boxes, with perforated dispensing slot for easy access and storage.
- Contains Latex
